DETAILED ACTION

Repeated Rejections

1. The 35 U.S.C. 102 rejection of claims 1-11 and 13-22 as anticipated by Lu is repeated for the reasons previously set forth in the Office Action mailed 9/6/05, Pages 2-3, Paragraph #2.
2. The 35 U.S.C. 103 rejection of claims 12 and 23-26 over Lu is repeated for the reasons previously set forth in the Office Action mailed 9/6/05, Pages 3-4, Paragraph #4.

Response to Arguments

3. Applicant's arguments filed 12/6/05 have been fully considered but they are not persuasive. Applicant argues "The Examiner asserts that the Lu patent "discloses a composite article having large scale dimensional stability," without any basis for this assertion. In fact, as that phrase is defined in the present specification, it requires that the article may be heated to a temperature of 150°C and held at that temperature for up to sixty minutes and then returned to ambient temperatures while still remaining its dimensional stability. The only material taught or suggested by Lu for use in a film is polyvinyl chloride (PVC). Since PVC has a glass transition temperature (T_g) of about 78°C, it clearly will not be dimensionally stable when heated to 150°C". In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., heated to a temperature of 150°C and held at that temperature for up to sixty minutes and then returned to ambient temperatures while still retaining its dimensional stability) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the

specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
